

# CIENS Conference 2017

## Samskaping for det grønne skiftet i Oslo

Photo: Bent Inge Ask

The conference is hosted by Oslo Centre for Interdisciplinary Environmental and Social Research (CIENS) and the Municipality of Oslo

# Co-creation to promote the green shift in Oslo

## European Green Capital – Oslo 2019

*«Det som blir veldig viktig for oss er å invitere innbyggerne, organisasjoner og næringslivet med i både planlegging og gjennomføring av det som kan bli et fantastisk år for byen vår».*

Byrådsleder Raymond Johansen

# Co-creation to promote the green shift in Oslo

---

## **Co-creation is defined as:**

a process where two or more public and private actors attempt to solve a shared problem through constructive exchange of different kinds of knowledge, resources, competences and ideas.

# Co-creation to promote the green shift in Oslo

---

## CIENS Conference 2017

1. What are the main challenges for achieving a green change in current policy fields and sectors?
2. How can co-creation promote innovation and change? What hinders co-creation?
3. How do we build new arenas for co-operation between research, business, government and the citizens of Oslo?

## Oslo Centre for Interdisciplinary Environmental and Social Research

CIENS is a strategic research collaboration of independent research institutes and the University of Oslo

 **°CICERO** | Senter for klimaforskning

 **Meteorologisk institutt**

 **NILU** Norsk institutt for luftforskning  
Norwegian Institute for Air Research

 **NIKU**  
Norwegian Institute for Cultural Heritage Research

 **NINA**  
Norsk institutt for naturforskning

 **NIBR**  
Norwegian Institute for Urban and Regional Research  
OSLO AND AKERSHUS  
UNIVERSITY COLLEGE  
OF APPLIED SCIENCES

 **NIVA**  
Norwegian Institute for Water Research

 **toi** | Institute of Transport Economics  
Norwegian Centre for Transport Research

 **UiO** : University of Oslo

## Priority areas

- **Urban Planning:** politics and participation
- **Climate Transition:** mitigation and adaptation
- **Sustainable Transport:** green mobility and logistics
- **Social Sustainability:** community and equity
- **Physical urban environment:** air, water, land, barriers
- **Nature-based solutions:** blue-green structure
- **Green economy:** growth and technology

**CIENS wants to be an important partner in taking the green shift forward**

Welcome to an interesting day with cooperation and co-creation
